- (1) FS = Forest Service and DOI = Department of the Interior
- (2) Fiscal Year - DOI Data
- a. For Fiscal years FY2006-2009, the DOI numbers only included Hazardous Fuel Activities. From FY2013 forward, data includes Hazardous Fuel Activities, Non-National Fire Plan Activities, and Fire Use.
- (3) USDA Forest Service Data
- a. For FY2006-2009, the Forest Service numbers included hazardous fuel activities, non-national fire plan activities, and wildfire acres.
- b. Forest Service acres include Recovery Act funded treatments in FY 2009 & 2010.
- c. From FY2013 forward, both DOI and Forest Service report the same data (hazardous fuel activities, non-national fire plan activities, and wildfire).
- d. FY 2024 USFS Data are from NFPORS extract dated 11/13/2024. FS data is from NFS accomplishments and does not include State accomplishments through SFA or CWDG.
- (4) Data are from the National Fire Plan Operations and Reporting System (NFPORS) and nextgen NFPORS - Interior Fuel & Post Fire Reporting System (IFPRS)
- a. Fiscal Year Target And Other Reports -- Daily Reports \ DOI Activities and Treatments -- All
- b. Beginning in FY2025 all DOI data will be from IFPRS.
- (5) Other = Treatment Category that describes work involving the use of chemicals, grazing, or biological methods to achieve Fire Management Plans objectives.
- (6) Format Table breaks out fuels management accomplishments by WUI designation compared to Categories; including Prescribed Fire/Wildfire types.
- a. NOTE:
- i.  = WUI Totals do not equal Category Totals
- ii.  = WUI Totals equal Category Totals

This report was part of the annual Healthy Forest Report from 2006-2009.
